CHARACTER WORKSHEETS

Use this worksheet to create the background for your character in this game. Consider the setting, flavor, and goals of the party when developing your character. Remember, the more you put into this background now, the more your DM can incorporate you into the main story line.

what does your character love/prefer?
Everyone has likes and dislikes. When utilized in roleplay, it makes your character feel more real! These also present great roleplay opportunities in your game and with your fellow players.
Ex: A character only having a taste for wine. Perhaps you have a character that prefers to sleep on the floor or can't help but dance every time a lutist begins a tune.
What does your character hate/dislike?
We all have something that just really grinds our gears. Your character should have that thorn in their side as well. Be careful, it could be conflicting if another PC is roleplaying something you hate.
Ex: Your character is terrified of water, afraid of spiders, or can't stand acapella singing. Perhaps they prefer to sleep in the woods vs the hustle and bustle of the city.
Does your character have any hobbies?
Hobbies pass the time when you journey across the land. They can also be helpful in aiding our allies, building relationships, and even passing a skill check!
Ex: Your character is a bit of a botanist. They collect plants and press them into their journal. Their knowledge of plants give them insight into rare plant made poisons as well as healing herbs.

Why is your character adventuring?
The age-old question of DnD! What made your character leave to become an adventurer. This is perhaps one of the most important questions. Think of your character's goals and motivations while brainstorming.
Ex: Your family farm was burned to the ground. So, you now spend your days hunting down the assailants that took everything from you.
Do you have a hidden past? Running from something? Secrets?
Secrets are the currency of intimacy. We all have them and revealing a secret is a great way to grow closer to other players. Be aware of the gravity of your secret, if it's something that informs your personality or behavior, the sooner you get that out in the open, the better.
Ex: You were asked to assassinate the mayor. you didn't know why, but you did and its haunted you ever since.
What are your flaws and weaknesses?
No one is perfect. Our flaws and weaknesses make us unique. When we are at our worst because of them, our friends are able to step in and be the support we need. Think of your character backstory. What in your backstory would define these flaws and weaknesses? Did your house burn down? Is that why you fear fire? Flaws are an opportunity for your character to grow, develop, and change.
Ex: Your character plays it tough. They are intimidating, bulky, and terrifying. You once finished a bandit in the most ferocious way possible. Yet, you can't help but melt in the presence of field rabbits.

What are your character's motivations?

Even Chaotic Neutral characters have anchors. Examples could include a Monk's monastery, Rogue's, Guild, or a parent or mentor.

Why is your character their chosen class?

Is your character a cleric because your deity saved your sibling from certain death? Is your character a rogue because their parents were the head of the thieves guild?

Which characteristics would you associate with your character?

Which adjectives would you associate with your character. Use these adjectives to define their personality. This will help you 'hear' and visualize their persona. If you can, try to limit yourself to 10.

ATTACK (ACTION)

Make one melee or ranged attack with a weapon, or multiple attacks with the 'Extra Attack' class feature. (See the 'Attack Action' section below.)

CAST A SPELL (CASTING TIME OF THE SPELL)

Effect depends on the spell being cast.

DASH (ACTION)

Gain your speed as extra movement for this turn.

DISENGAGE (ACTION)

Your movement doesn't provoke opportunity attacks for the rest of the turn.

DODGE (ACTION)

Attack rolls from attackers you can see have disadvantage and you have advantage on Dex saving throws until the start of your next turn, until you become incapacitated or your speed drops to 0.

ESCAPE (ACTION)

Escape a grapple by winning a Str (Athletics) or Dex (Acrobatics) check vs. grappler's Str (Athletics) check.

HELP (ACTION)

Give an ally advantage on next ability check or attack roll vs. an opponent within 5 ft of you, if done before the start of your next turn.

Hide from those that can't perceive you. Your Dex (Stealth) check is the DC for anybody's Wis (Perception) check to discover you.

OVERRUN (ACTION OR BONUS ACTION)

Move through hostile's space once by winning opposing Str (Athletics) check. Advantage if you are larger or disadvantage if you are smaller than the opponent.

READY (ACTION)

Choose an action that you will take in response to a set trigger. Taking the action uses your reaction. Readying a spell requires concentration and expends the spell slot.

SEARCH (ACTION)

Search for something, possibly with a Wis (Perception) or Int (Investigation) check.

TUMBLE (ACTION OR BONUS ACTION)

Move through hostile's space once by winning opposing Dex (Acrobatics) check.

USE OBIECT (ACTION)

You can interact with an object once per turn for free. A second interaction and special cases take an action to complete (e.g. draw a second weapon, equip a shield, drink a potion, retrieve an item from a backpack).

COMBAT ACTIONS

(PHR 193

MELEE ATTACK (ONE ATTACK)

Normal attack on target within 5 ft. If attacking with a light melee weapon in one hand, allowed to make an attack with a light melee weapon in other hand as a bonus action, see 'Two-Weapon Fighting'. If either weapon has the thrown property, it may be thrown as part of this action.

HALF +2 AC and Dex saving throws +5 AC and Dex saving throws TOTAL Can't be targeted directly by attack or spel COVER

RANGED ATTACK (ONE ATTACK)

Normal attack if up to normal range (first number). Disadvantage on the attack if up to long range (second number) Disadvantage on the attack if a hostile that is not incapacitated is within 5 ft and can see the attacker.

TWO-WEAPON FIGHTING (BONUS ACTION WITH ATTACK ACTION)

If making an attack with a light melee weapon in one hand, allowed to make an attack with a light melee weapon in other hand as a bonus action. This off-hand attack can't add a positive ability score modifier to the damage roll. If the weapon has the thrown property, it may be thrown as part of this action.

DISARM (INSTEAD OF ONE ATTACK)

Knock an item from grasp by winning weapon attack roll vs. opponent's Str (Athletics) or Dex (Acrobatics) check. Disadvantage on the weapon attack roll if the item is being held with two or more hands. Larger opponents have advantage and smaller have disadvantage.

GRAPPLE (INSTEAD OF ONE ATTACK)

With a free hand, give the grappled condition to an opponent that is within reach and up to one size larger than you by winning Str (Athletics) check vs. opponent's Str (Athletics) or Dex (Acrobatics) check.

With a melee attack you can mark the target of that attack. The next opportunity attack against the marked target before the end of your next turn has advantage and doesn't cost you your reaction.

SHOVE (INSTEAD OF ONE ATTACK)

Move opponent 5 ft or make prone by winning opposing Str (Athletics) check. Disadvantage if trying to move the opponent to a side rather than to directly away from you.

ATTACK ACTION

BLINDED

Fail checks involving sight. Attacks have disadvantage. Enemy attacks have advantage.

TRAVEL PACE

MOVE (LIMITED BY MOVEMENT SPEED)

You can move your movement speed every turn. You can break up your movement between actions. You can switch back and forth between different types (e.g. from flying to wa**l**king), by subtracting the distance already moved from the new speed.

You can freely move through a nonhostile's space, and through a hostile's space if it is two sizes larger or smaller than you. Another creature's space counts as difficult terrain.

CLIMB / SWIM (AT 1/2 SPEED)

May involve a Str (Athletics) check if the climb / swim is difficult.

Crawl while prone (see conditions). Dropping prone costs no movement speed.

DIFFICULT TERRAIN (AT 1/2 SPEED)

Moving through difficult terrain costs twice as much speed. Another creature's space counts as difficult terrain.

After moving at least 10 feet on foot, you can jump your Str score in feet straight forward, or 3 + your Str modifier in feet up. The jump distance is halved when performing a standing jump.

STAND UP (COSTS 1/2 SPEED) Standing up from being prone costs half your movement speed for this turn.

Marching more than 8 hours per day requires a Con saving throw at DC 10 + 1 per additional hour, at the end of each additional hour. If failed, suffer one level of exhaustion (see conditions).

FOOD (ONE POUND PER DAY)

Go without food for 3 + Con modifier of consecutive

days (1 day minimum). At the end of each day beyond that, suffer one level of exhaustion (see conditions).

If only half a gallon is consumed, DC 15 Con saving throw at end of day. If failed or consumed less than half, suffer one level of exhaustion, or two levels of exhaustion if currently already exhausted (see conditions).

1d6 bludgeoning damage per 10 feet fallen, to a maximum of 20d6. End prone if taken any damage from the fall. SUFFOCATING Hold breath for 1 + Con modifier in minutes (30 seconds minimum). After that, survive for Con modifier in

rounds, after which drop to 0 hit points and dying.

SHORT REST

A short rest takes 1 hour of doing nothing too strenuous. At the end of the rest, spend hit dice to regain hit points.

A long rest takes 8 hours with nothing too strenuous for more than 1 hour of that. Regain all hit points and half hit dice at end. If food and water are consumed, reduce exhaustion level by 1. Maximum of 1 long rest per 24 hours.
